

SUSTAINABLE PAINTS & WOOD FINISHES

www.house-paint.com.au

PRODUCT & PRICE LIST

Welcome to Painted Earth. Australia's largest range of modern eco friendly and non-toxic paints & finishes.

We've collected together the best products from **over ten different manufacturers** to give you a complete range of eco friendly finishing products for walls, floors, furniture, decks, rooves & more.

We stock **low VOC acrylic paints** as well as **natural paints and finishes**. We also stock decorative finishes, texture coatings, pre-mixed renders and clay & lime plasters. These are good quality modern products, manufactured to the latest standard. We know you'll enjoy using them and come back for more.

You'll also be pleasantly surprised to see many products are a similar price to regular paints. In fact our biggest seller, Rockcote Ecostyle paint is similar quality to Dulux Wash & Wear, carries the same 15 year warranty and only costs about 10% more. **Rockcote Ecostyle is a zero VOC acrylic paint** which means all the performance of a regular acrylic paint but no toxic paint fumes.

Purchasing your paints and finishes from Painted Earth **assures you are providing of healthy indoor air quality for homes and work places** as well as protecting our environment. Many of our products carry GECA certification (Good Environmental Choice Australia) and **give Greenstar rating to buildings, thus increasing their value**.

The natural paints & wood finishes we sell are on the whole more environmentally friendly in their manufacture and disposal, and the most suitable for people with high chemical sensitivity. However they cost a little more than the acrylic low VOC paints and finishes. So we carry both to give you a choice.

We support many smaller companies, such as Rockcote, Murobond & Livos because these companies are committed to ethical principles and making environmentally responsible products.

We offer a **LARGE VOLUME TRADE DISCOUNT** for purchases over \$2000. We appreciate your support of us. **Your choices can change the world.**

	4L	\$94
	15L	\$273

VOLVOX

Clay Paint

A beautiful odour free paint made from natural clay. The healthiest choice for homes & environment. Clay can absorb odours and variations in humidity, thus providing a very healthy, comfortable living environment. Its ultra matt finish suits walls and ceiling that do not require frequent cleaning. Marks can be wiped, but not scrubbed. Vulnerable areas can be clear coated or waxed. Very good hiding power- especially the white - so one less coat is sometimes possible. Made in Germany Carries the Ecoflower label for high performance and high environmental consideration. 7 Natural clay colours and a range of beautiful tinted colours. Tinting is extra according to colour. No priming needed. Sticks well to most surfaces. 1 or 2 coats required. Coverage 8 -10m ² /L , Natural clay colours are - Monte Blanc(white), Ivory, Dacar, Sienna, Smoke, Terracotta, Polar. Colours shown in a 126 colour booklet. This can be purchased and returned for a refund. Zero VOC	1Lwhite	\$32

		5L	\$126
		10L	\$230

ROCKCOTE

Limewash	A limewash made from traditional natural ingredients with just enough modern ingredients to perform in our modern world. Use on unpainted masonry surfaces, lime and clay renders, interior & exterior. A soft, matt character finish that develops a unique patina over time. Apply with a long nap roller, brush or mitt in random pattern. 1 or 2 coats Covers 2m ² /L	1L	\$25
		4L	\$71
		15L	\$208
		200ml samp	\$10

ROCKCOTE NATURAL CLAY PLASTERS & RENDERS

Clay plasters & renders are natural materials applied to walls. Plasters applied thinly give a unique decorative finish. Renders applied thickly cover bricks or blocks. Clay has a natural capacity to absorb odours and regulate humidity - thus creating healthy indoor climate and air quality. With correct preparation they can be applied over most dimensionally stable surfaces - Gyprock, cement fibre sheet, bricks, hebel, concrete, straw bale, hempcrete, rammed earth etc. Naturally dirt repellent. Coat with Repel for water repellance. We hold Workshops for DIY's and professionals.

Clay Plaster Décor	A white clay plaster designed to be applied 2 - 6mm thick. Use as is, or add interest with straw, hemp, rice hulls, coloured glass, shells, oxides etc. 4m ² /15kg @ 2ml thick.	15kg 1kg sample	\$56 \$12
Otsumigaki	A fine clay and lime plaster, polished to a smooth lustre finish. Suitable for interior only. Apply 2 thin coats wet on wet 0.5 - 1.5ml thick. Wax & polish when dry. 20m ² /15L@1mm	4L 15L	\$50 \$144
Earthen Render Medium	An off-white clay with medium texture designed to be applied 2 - 6mm thick as a render on its own or as a base for Clay Décor. Suitable for interior use only. 3m ² /20kg @3mm	20kg 1kg sample	\$30 \$12
Earthen Render Coarse	A hard durable render developed for straw bale buildings and other natural substrates. Heavy texture provides rustic clay finish. Interior only. 3m ² /20kg @ 3mm build	20kg	\$30
Clay Cob Base	For building traditional wood fired clay ovens.	20kg	\$24

ROCKCOTE NATURAL LIME PLASTERS

Lime plasters are resilient to water so can be used in exterior situations and wet areas such as bathrooms and even shower recesses.

Venetian Plaster	A highly reflective polished plaster finish suited to bathrooms, feature walls, columns & ceilings. Appears as a marble finish without the weight. 30m ² 2 coats/15L @0.5 - 1.5mm thick	4L 15L	\$90 \$261
Marrakesh	A popular Moroccan plaster finish, worked to give a matt or polished finish. Suit bathrooms & wet areas, smooth seamless stone finish. 4m ² /16kg @2mm thick. 1 coat matt, 2 coats polished	16kg	\$57
Lime Plaster Basecoat	A true lime render. Use as a basecoat for Venetian Plaster, Marrakesh and Limewash, or as a final finish on interior & exterior walls. 1 or 2 coats 3 - 6mm / coat . 3m ² /18kg @3mm thick .	18kg	\$28
Carnauba Wax	Natural liquid wax used to polish Otsumigaki, Venetian plaster and Marrakesh. 100m ² /L	1L	\$52

WOOD & FLOOR OILS

LIVOS			
Ardvos Wood Oil	The most popular natural wood oil used for interior timber floors and woodwork. Made by Livos.	50ml	\$10
	Certified safe for use on toys & food utensils. Easy to apply. Consistently good satin finish. Easy to maintain or repair. 3 coats on floors allowing a day between each for drying, 2 coats on walls and trim. Also use on cork, concrete, stone and mud brick flooring but test first for coverage rate and sheen level on these. 1L = 3 coats on 11m ²	250ml	\$25
		750ml	\$53
		2.5L	\$139
		5L	\$242
		10L	\$450
Kunos Oil Sealer	Kunos brings out the full rich beauty of all timbers and dries to a hard satin sheen finish. It can be buffed to a higher gloss level than Ardvos due to it's extra resin content. Used by furniture makers. Suitable for floors, benchtops and furniture. A little more skill to apply than Ardvos but still DIY. Available in clear and a range of stain colours - White (maintains raw timber colour), Rosewood Mahogany, Walnut, Dark Walnut, Antique Oak, Smoked Oak, and Tobacco. Excellent colour change without overlaps marks. Apply 3 coats with a day between each to dry. 1L = 3 coats on aprox 15m ²	50ml	\$10
		250ml	\$34
		750ml	\$74
		2.5L	\$195
		5L	\$374
		10L	\$620
Kunos Countertop Oil	A countertop version of Kunos containing even higher amounts of resin making it more waterproof and resistant to hot cups. Use on tables and benchtops. 100m ² /L as a top coat	50ml	\$10
		250ml	\$34
Kunos Maintenance Oil	Refreshes the shine on Kunos or Ardvos oiled floors. Apply with polishing machine. 250ml for 40m ²	250ml	\$29
Linus Priming Oil	A deeply penetrating cold pressed linseed oil. Can be used as the priming/ first coat for above oils. Especially good as a priming coat on very absorbent timbers, concrete, porous stone and mud brick. Slow drying - which allows thorough saturation and easy application on large areas. May give less sheen to final finish. Requires 48hrs drying time. 8 - 18m ² /L depending on absorbency of surface.	750ml	\$38
		2.5L	\$97
		5L	\$171
		10L	\$318
Kaldet Oil Varnish/Stain	A penetrating oil varnish available in clear & stain colours. For interior timber trim, furniture, cabinetry, window & door frames. Fast drying. With several coats it has a semi gloss shine. Colours available are white, pine, boxwood, brazil, dark teak, oak, walnut, rosewood, light grey, ultramarine blue, green, ebony and clear. 2 or 3 coats required. Coverage 15 - 30m ² /L	50ml	\$10
		375ml	\$33
		750ml	\$56
		2.5L	\$148
Svalos Thinners	A non-toxic alternative to turps. Made from isoaliphates and orange oil. Use to thin oils and clean brushes. Also used by artists as a thinner & cleaner for oil based paints.	500ml	\$22
		1L	\$33
		4L	\$128
RUBIO MONOCOAT			
Oil Plus Stain Colours	A unique oil wax stain finish which bonds to wood - requiring only one coat.	60ml	\$15
OLD STOCKS ONLY	Only in colours. Suitable for timber panelling, furniture and trim. No overlap marks when applying	1L	\$76
50% OFF TILL SOLD	so ideal for large panels. Natural low sheen finish. Easy to apply. Covers 45 - 60m ² /L Zero VOC	2.5L	\$188
Oil Plus 2C	The new 2C version has an extra hardener to speed curing time & durability. For floors, furniture & benchtops. Clear(Pure) and coloured. Covers 45 - 60m ² /L depending on timber and application. The saving on labour of a one coat application only makes this a unique product.	350ml 2C	88 / 112c
		1.3L 2C	258 / 318c
		3.5L 2C	668 / 790c
Maintenance Oil	This oil gives extra shine and durability to Monocoat oiled surfaces. Can be applied 36 hours after initial treatment with Rubio Monocoat oil or any time thereafter. Covers 150 - 200m ² /L Zero VOC	500mlP	\$120
Pre-Colour Easy	Creative effects can be created with these waterbased pre-colour stains, followed by the oils. EG a grey pre colour plus white oil on pine. 14 colour variations of black, brown, grey & white. Covers is 15 - 20m ² /L. Allow to dry 1 to 3 hours before oiling	100ml	\$35
		1L	\$147
		2.5L	\$331
		5L	\$638
Smoke	Use as a pre-treatment to age timber. Brings out the grain and character of timber in various ways depending on the tannin content and type of timber. Follow with Rubio Monocoat oils.	100ml	\$11
		1L	\$56
Fumed	Instantly greys timber. Result depends on type of timber. Follow with Rubio Monocoat oils.	5L	\$249

PRE - CLEANERS

RUBIO MONOCOAT

Raw Wood Cleaner	Prepares timber for good bonding of the Monocoat oil by removing all dust and opening the pores. 1L	\$45
	Covers 75 - 100 m ² /L	5L \$198

PHENIX PAINTS

Floorprep	A water based cleaner that assists the removal of oil, grease & other contaminants prior to painting concrete floors. Dilute 1:10 for scrubbing floors. Dilute 1:4 for tough stains. 1L	\$25
		5L \$88

MAINTENANCE CLEANERS

LIVOS

Trena - ph neutral cleaner	A safe cleaner recommended for cleaning all wood furniture, benchtops & floors. Won't strip out the oils. Restores the lustre. 1tsp in 5L bucket of water for damp mopping floors. Dilute in a spray bottle for wiping tables and benchtops. Use full strength for stubborn stains. 250ml	\$14
		1L \$27
		2.5L \$58

Glanos - wax cleaner	Use on timber floors every 4th wash to restore shine without build up of wax. 1tspn in 5L water.	1L \$35
----------------------	--	---------

Latis - intensive cleaner	An alkaline cleaner for heavier stains & dirt. Use for cleaning tiles, washbasins & wooden surfaces. Also cleaning floors before rejuvenation. Dilute in spray bottle for cleaning. Full strength on stains. 250ml	\$11
		1L \$25

LANOTEC

Citra Force - concentrate	Industrial strength cleaner /degreaser based on citrus oils. Can be used to remove build up of waxes such as Lantec Timber Seal. Also removes adhesives, glues, grease, chewing gum and paint. Cleans stainless steel & aluminium, commercial ovens & exhausts. 750ml	\$18
		5L \$85

ROCKCOTE

Black Soap	Use to waterproof Marrakesh Lime plaster and for regular cleaning of the surface afterwards. 250gm	\$25
------------	--	------

WAXES & POLISHES

VOLVOX

Wax Finish	Easy to apply liquid carnauba wax that will give extra shine and dust repelling qualities to furniture, floors or painted surfaces. Can also be added to cleaning water. Covers 30 - 40m ² /L. 1L	\$28
------------	--	------

Kinder Furniture Polish	A pleasant smelling furniture polish made from waxes & essential oils that gives extra shine and dust repellent quality to furniture. Coverage 50 - 80 m ² /L 1L	\$28
-------------------------	---	------

LIVOS

Gleivo Liquid Beeswax	A nice smelling easy to apply wax which gives extra shine and dust repelling qualities when applied over oiled furniture, panelling or floors. Not suitable for areas exposed to water splashes. Coverage as a wax treatment 25m ² /L For regular care covers approx 100m ² /L 50ml	\$10
		250ml \$25
		1L \$77

Bivos Oil Wax	A nice smelling mix of oils, waxes & essential oil, that can be used to restore old furniture or wood carvings. Also use on floors over Ardvos to give a silky sheen, or as a renewing procedure. Coverage approx 100m ² / L 50ml	\$10
		250ml \$27
		750ml \$58

RUBIO MONOCOAT

High Traffic Protection	Offers extra protection for floors in high traffic areas. Apply 36 hours after oiling and then use for periodic cleaning. Initial application 19m ² /L. For cleaning 150mls /bucket of water and damp mop. 1L	\$77
		5L \$326

MOULD CONTROL

ROCKCOTE

Fungicidal Wash	Effective treatment for killing moss, lichens and other fungi and algae on walls, rooves and drives. Use prior to painting as a residual fungicide. Use with suitable caution. Covers 3-6m ² /L 1L	\$18
		4L \$50
		15L \$145

EXTERIOR PRIMERS

ROCKCOTE

Ecostyle Sealer Undercoat	A versatile low VOC primer for interior & exterior use on bare gyprock, timber, cement sheet,	1L	\$25
add grit for render primer	hardboard and masonry. Add grit to create a primer with grip for render finishes.	4L	\$69
	1 or 2 coats recommended. Coverage 8 - 12 m ² / L	VOC <1g/L	15L \$199

A E Primer	A thick anti-efflorescent primer designed for painting over cured site mixed cement render to stop	4L	\$69
	efflorescence blooming through subsequent finishes. Tintable to strong colours. Covers 6m ² /L	15L	\$202

ZINSSER

Smart Prime	A special zero VOC waterbased primer that sticks to all surfaces and blocks all stains. Particularly	1L	\$38
	useful on glossy surfaces, plastics, vinyl, laminated formica, fibreglass awnings, aluminium trim &	3.75L	\$88
	ceramic tiles. Blocks stains from water, smoke, resin bleed, grease, crayon & rust. Also inhibits rust	10L	\$189
	and mould. 1 coat or may need 2 coats on some stains. Coverage 10m ² /L	VOC <1g/L	19L \$356

PHOENIX PAINTS

Metalfix	A superb water based etch primer for rusty metal. Converts rust to a stable, abrasion resistant skin	250ml	\$20 / \$23
	for overpainting, or can be left as a final coat. Highly fire retardant and withstands extreme	1L red	\$57
	temperature and salt water. Many industrial and domestic uses including machinery, exhausts and	1L black	\$63
	roofs. Red, black, white or grey. Red is the strongest film. 1 or 2 coats. Coverage 7 - 8m ² /L	5L red	\$262
Metalfix 1000	A similarly strong metal primer for non-rusted or only lightly rusted surfaces.	5L black	\$276
	Red, black, white or grey. Red is the strongest film. 1 or 2 coats. Coverage 7 - 8m ² /L	priced	as above

MUROBOND

Primer	A versatile primer for interior & exterior use on bare gyprock, timber, fibro cement, masonry &	1L	\$31
	previously painted surfaces to provide a sound base for Murobond paints. Low VOC, easy to use.	4L	\$72
	1 or 2 coats recommended. Coverage 8 - 10 m ² /L.	VOC 30g/L	10L \$147
		15L	\$207
Mineral Silcate Primer	Creates a strong bond to masonry surfaces before applying Mineral Silicate Paint	4L	\$95
	1 coat generally. Coverage 6 -12m ² /L	10L	\$200
Sealer	For use on porous or cracked masonry and other surfaces before applying Murobond Cement	4L	\$58
	Paint. 1 or 2 coats recommended. Coverage 6 - 12 m ² / L	10L	\$130
		15L	\$172

EXTERIOR ENAMELS & METALIC PAINTS

ROCKCOTE

Ecostyle Satin or Gloss	Ecostyle satin & gloss acrylic are hardwearing water based enamels suitable for trim or high traffic	1L	\$26
	walls. Interior and exterior on timber, metal, zinc, PVC, cement sheeting & hardboard. GECA certif.	4L	\$72
	(Good Environmental Choice Australia.) Tinted with low VOC tints to all modern paint colours.	15L	\$212
	Tint price according to colour. A few colours not recommended in full sun due to fade potential.		
	Prime bare timber with Rockcote Sealer/undercoat. 2 coats rec. Covers 16m ² /L	VOC 2.5g/L	

VOLVOX

ProAqua Enamel	A hard wearing water based enamel made from natural ingredients by Volvox. Satin finish. Suitable	120ml	\$16
	for interior & exterior use. Easy to apply & fast drying. Tinted to colours on the Volvox colour chart	750ml	\$72
	Apply directly to bare timber. 2 or 3 coats required. Coverage 14 - 16 m ² /L	Zero VOC	2.5L \$198

MUROBOND

Aqua Glaze Pearl	A unique pearlescent finish paint. Suitable for feature walls, furniture and high traffic areas.	1L	\$53
	Available in pearlescent colours only. Apply with a Murobond brush in random or even pattern.	4L	\$126
	Prime with 1 or 2 coats tinted Murobond Primer. 2 or more coats required. Coverage 8 -10m ² /L	10L	\$271
		Sample	\$10
Bridge Paint	A metallic iron oxide paint. Adds a sleek metallic highlight to compliment interior or exterior	1L	\$54
	schemes. Metallic colours only. Apply with a brush or spray. Fast drying and easy to use.	4L	\$146
	Requires 2 coats plus 1 coat tinted primer according to substrate. Coverage 10m ² /L	VOC <50g/L	10L \$303
		Sample	\$10

Rust Paint	A dramatic rust finish can be achieved with this paint using a 3 step process. Suitable for most interior and exterior, except ferrous metal as the rust process may affect the structural integrity of the steel. Brush or roller application. Precaution necessary when applying. Allow to rust to desired level then apply a coat of matt clear to stop further oxidation. Base requires 2 or 3 coats, covers 3 - 4 m ² /L. Oxidation coat requires 1 coat, covers 11 - 12m ² /L. Clear requires 1 coat int, 2 coats ext. covers 11-12m ² /L 100ml \$10, 300ml \$20, 1L \$50, 4L \$117	300ml B.	\$33
		1L Base	\$84
		4L Base	\$253
		300ml Fin.	\$27
		1L Finish	\$68
		4L Finish	\$181

PHOENIX PAINTS

Kingcoat	A water based hard high gloss industrial enamel with excellent corrosion protection. Suitable for steel construction, boats, farm vehicles & machinery, wheelbarrows, gates etc. Single pack that behaves like a two pack. Easily brushed, sprayed or rolled. Prime bare metal with Metalfix. A range of colours. Tinting priced according to colour. 2 coats recommended. Covers 8-10m ² /L	1L	\$45
		4L	\$132
		10L	\$289

EXTERIOR WALL PAINTS

ROCKCOTE

Ecostyle low sheen or satin See ENAMELS	Ecostyle low sheen is a hardwearing exterior acrylic paint carrying a 10 year guarantee. Certified by GECA (Good Environmental Choice Australia). Suitable for timber, masonry & fibro walls. Good hiding power. Tinted with low VOC tints to match all modern colours, Dulux etc. A few colours not recommended in full sun due to fade potential. Tinting price according to colour. Prime bare substrates with appropriate primer. 2 coats recommended. Covers 14m ² /L VOC <1g/L	1L	\$26
		4L	\$72
		15L	\$212
		Sample	\$10

Natural Lime Wash	A uniquely beautiful natural paint made from lime. Bonds to substrates and gives a long lasting robust finish. Use over Lime Plaster Basecoat & Eathern Render. 1 or 2 coats. Covers 2m ² /L	4L	\$71
		15L	\$208

Textured paints

Render Paint Flat	An acrylic paint containing coarse or medium sand. Matt texture finish. Apply to primed surfaces and Rockcote renders. Prime site mix renders with AE primer. Apply with roller. Covers 5m ² /L	4L	\$52
Render Paint Fine		15L	\$152

Toscani	An acrylic paint containing fine sand giving a matt render appearance with tonal variations. Apply direct to primed surfaces and Rockcote renders. Prime site mix renders with AE primer. Apply with roller & large brush in random pattern . 2 coats . Covers 3-4m ² /L	4L	\$58
		15L	\$169

Concote	An acrylic paint containing graded sand to give a traditional bagged render finish. Apply direct to Rockcote renders. Prime site mix renders with AE primer. Apply with roller & brush 1.5-2m ² /L	4L	\$73
		15L	\$206

MUROBOND

Murowash add sand for extra texture	A mineral paint with a gorgeous flat finely grained texture and subtle colour variations. Ideal for concrete & masonry surfaces. Also use as decorative finish for interior walls. Non-toxic, long lasting Rich Murobond colours. Popular with designers. Apply with a Murobond brush. Add sand for extra texture. Prime with tinted Murobond Primer. Apply 2 coats. Coverage 10m ² /L. VOC <10g/L	1L	\$38
		4L	\$91
		10L	\$180
		15L	\$257
		Sample	\$10

Mineral Silicate Paint	Based on potassium silicate which chemically combines with masonry surfaces to produce an extremely long lasting, hard protective finish. Matt, UV stable and resistant to weathering. Ideal on cement render, concrete, bricks or stone. Apply with brush, roller or spray. Murobond colours Prime with Mineral Silicate primer. Dampen while drying. 2 coats . Cover 6-8 m ² /L Zero VOC	1L	\$52
		4L	\$135
		10L	\$300
		15L	\$384

Cement Paint add sand for texture	A durable weather resistant paint that ages and fades with exposure. Supplied in powdered form and mixed with water before applying. Like applying a thin coat of coloured cement to the wall. Suits masonry, bricks, concrete & render. Add sand for a light bagged effect. Limited colours Prime with Murobond Sealer. Dampen wall to slow curing. 2 coats. Covers 5-6m ² /kg Zero VOC	1Kg	\$39
		4Kg	\$95
		10Kg	\$184
		15Kg	\$253

Pentimento Limewash	A modern limewash that creates a soft, slightly mottled, matt finish to add character to exteriors. Suitable for masonry and previously painted walls. Murobond colours. Apply with a large brush in random pattern. Prime first with tinted Murobond Primer. 2 coats required. 6-8 m ² /L VOC 13g/L	1L	\$37
		4L	\$95
		10L	\$202

PROTECTIVE MEMBRANE PAINTS

Protective membrane paints are heavy duty, flexible, high build coatings that provide the ultimate long term protection in our harsh climate. 3 - 6 times thicker than standard paints and flexible enough to bridge cracks 1 - 3 mm. Suit high rise buildings requiring easy maintenance. Not low VOC but included in our range because low maintenance conserves resources. Superior to most other membrane paints.

Rockcote Armour	A high performance protective coating, water resistant, vapour permeable and highly flexible. Apply with roller brush or spray. Flat or low sheen. 2 coats required. 3.5 - 4.5 m ² /L	4L 15L	\$63 \$179
Rockcote Armour Plus	Even thicker and more flexible than Armour. Ideally suited to high rise and commercial buildings Apply with roller brush or spray. Low sheen only. 2 coats required. 2 - 3 m ² /L	4L 15L	\$70 \$204

RENDERS

We sell Rockcote pre-mixed cement and acrylic renders. One of the biggest advantages of premixed renders is a reduction in the waste and labour involved in mixing sand & cement on site. The other major advantage is quicker curing time - they can be painted after 48 hours, and no primer is required. Cement renders are used for masonry surfaces such as bricks & blocks. Acrylic Render - used for blueboard, fibre cement sheet, painted surfaces, off form concrete & other dense panels, and Hebel. See also Natural Lime render in the Natural Materials / Interior section

Rockcote Pre-Mixed Cement Renders

Q Render Grey	A pre-blended cement render. Just add water. More labour efficient, less waste than mixing sand & cement on site. Can be painted after 48 hrs instead of 30 days needed for curing site mix cement. Suitable for masonry surfaces int & exterior. Designed to be coated with a texture paint, membrane paint or decorative coloured render(see below). Apply 4 -10 ml thick. 20kg = 2m ² @ 4mm thick	20kg	\$17
Q Render Fine	Similar but with a finer sand particle (beach sand) so can be finished to a smoother texture.	20kg	\$18
Q Render Off White	Similar to Q Render Grey but off-white colour.	20kg	\$18
Q Rend' Premium Sponge	Similar to Q Render Grey but designed for thin coats - easier for DIY. Off white. Apply 2-4mm /coat	20kg	\$20
Q Render FR NEW!	A fibre reinforced Q render for high strength, crack resistance and low shrinkage. 20kg = 3m ² @4mm	12kg	\$30
PM100 Hi Build NEW!	High build in one coat with less weight. Contains light weight polymer aditives. Apply 5 - 30mm thick. 12kg =1.3m@10mm	12kg	\$24
Flexi Tex NEW!	A hybrid cement/acrylic render providing an easy and economical render coating over almost any substrate interior & exterior - especially suited to AAC & blueboard. Highly flexible. Attractive sand finish. Must be overcoated with Rockcote Armour. One coat 1.2 mm thick 20kg = 9 -10m ²	20kg	\$55

Rockcote Acrylic Renders & Texture

Polymer Render Grey	A sand & acrylic render in a bucket suitable for rendering over painted surfaces, blueboard, fibre cement, Hebel, and off form concrete panels or other dense surfaces. Must be coated with a paint membrane paint or decorative render (see below). Apply 1 - 4mm thick. 15L = 2.5 - 12.5m ²	4L 15L	\$26 \$74
Polymer Render Off White	Off white colour, less build, easy to apply. Apply 1 - 1.5mm thick. 15L = 3.8 - 15m ²	15L	\$76
Polymer Render Fine	Contains fine sands that create a finer finish and aesthetic. Apply 1-4mmn thick. 15L = 7.5 -15 m ²	15L	\$98

Rockcote Render Prep & Patch Products

Keycote	Provides a strong adhesive bond to difficult substrates eg.smooth dense masonry, cement sheet	20kg	\$32
Patch 'n'Prep	An adhesive basecoat used for preparation of surfaces, setting joints & PVC beading. Fast drying	20kg	\$32
Hard Patch	A patching compound design for patching holes, form joints and imperfections. Mix with cement. 24hr dry.	4L 15L	\$41 \$118
Smooth Sanding Patch	An ultrafine sandable patching compound used for small holes or to create smooth surface.	4L	\$52
Smooth Set NEW! white or off white	A cement patching product used to patch holes and imperfections in masonry walls. Can also be used as decorative render to achieve a polished concrete look. Coat with Repel for water resistance	12kg 12kg white	\$49 \$52

DECORATIVE RENDER FINISHES

Decorative render finishes add colour and texture. They are used as a final finish instead of paint over cement or acrylic rendered surfaces, giving a unique look and long term protection. Applied with a trowel, generally 0.5 - 1 mm thick.

ROCKCOTE

Finecote	A decorative coloured acrylic render containing fine sand. 0.5mm build. Matt render look. Apply direct to Rockcote renders. See systems manual for prep of other surfaces. Trowel on.	1.3 m ² /L	4L	\$34
			15L	\$98
Sandcote	A decoartive coloured acrylic render containing quartz sand. 1mm build. Matt solid render look. Direct to Rockcote renders. See systems manual for prep of other surfaces. Trowel on.	10m ² /15L	4L	\$40
			15L	\$116
Quicksand and Quicksand Coarse	A decorative coloured acrylic render giving a coarse sandy render finish. 1mm build. Excellent crack bridging ability. Apply to Rockcote renders. See systems manual for other surfaces.	12-15 m ² /15L	4L	\$46
			15L	\$131
Acrylic Texture fine, med, coarse	Easy to apply texture coating - fine, medium or coarse. Used to add tecture before applying Rockcote Armour. Suitable for many substrates such as masonry, ACC, blueboard.	15L = 12 -15m ²	15L	\$103
Smooth Set NEW! white or off white	A cement patching product that can be used as decorative finish to achieve a polished or raw concrete look. Coat with Repel for water resistance. 2 tight coats recomended	12kg = 8m ² @1mm	12kg	\$49
			12kg white	\$52

CLEAR PROTECTION

Rockcote

Repel	A silcon infused protective finish which shows very little change to the substrate. Gives added dirt rejection and water repellency to all renders and texture finishes. Apply with a brush , roller or garden sprayer. Vapour permeable. Covers 4 - 8m ² /L depending on porosity of substrate.	1L	\$27
		4L	\$77
		15L	\$223
Clearcote	Clear semi gloss sealer that provides water repellency, dirt and mould rejection to textured paints & renders. 4 hours drying. 1 or 2 coats . Covers aprox 8m ² /L on textured surfaces.	4L	\$68
		15L	\$193

ROOF PAINTS & PRIMERS

Coolshield

Solacoat satin	A unique waterbased acrylic paint which contains an additive that reflects up to 80% of the suns infra-red rays. Reduces internal temperatures in a building by up to 15°C . Durable, attractive flexible, and rust inhibiting. Can be used on metal or ceramic rooves. Safe for collecting water Apply with brush, roller or spray gun. Prime bare metal or ceramic first. 2 coats recommended Coverage on corrugated iron 15L sufficient for 2 coats on 75m ² (10m ² /L per coat)	light colours	4L	\$92	
			15L	\$310	
		mid colours	4L	\$110	
			15L	\$365	
		Solacoat WB Primer	Use as primer on new galvanized, zinalum, or aluminium before applying Solacoat. Cov. 10m ² /L	4	\$86
		Solacoat CP Primer	Use as primer on tiles, cement & masonry surfaces before applying Solacoat. Coverage 10m ² /L	15	\$267

Rockcote

Solar Protect satin or gloss	A thick water based membrane paint which will provide long term protection for ceramic tile or metal rooves. Tintable to a wide range of colours. Safe for collecting drinking water. Prime first according to surface. 2 coats recommended. Coverage approx 5m ² /L per coat	4L	\$72
		15L	\$210
Solar Protect Clear	A clear version of the above for ceramic tiles. Covers aprox 5m ² /L	4L	\$72
		15L	\$210

EXTERIOR TIMBER & DECKS CLEANERS

DECK DOC

Timber Cleaner	A bio-degradable eco friendly cleaner for cleaning old sun bleached or stained decks before re oiling. Also kills wood rot, mildew & algae. 1kg makes up to 20L. Coverage 60m ² /L	1kg	\$45
		2kg	\$75

LIVOS

Glouros	A bio- degradable environmentally friendly cleaner for timber and stone. Removes moss, algae fungal stains, cement & salt residue. Dilute 1:10 for cleaning. 1:5 for residual protection.	1L	\$22
		10L	\$162

RUBIO MONOCOAT

Ext Wood Cleaner	Used with Monocoat Hybrid and Decking Oil systems to clean and prepare the timber.	1L	\$52
	Usage 10 - 20 m ² /L	5L	\$209

EXTERIOR TIMBER & DECKS FINISHES

LIVOS

Alis Decking oil	A thin, penetrating oil suitable for use on smooth exterior timber windows, doors, panelling, decks and furniture. Based on linseed oil, other natural oils & pigments. An attractive natural look finish. Comes in a range of tinted colours, giving good UV protection. Easy and very economical to apply	50ml	\$10
	Made in Germany by Livos. Colours are Boxwood, Oregon Pine, Oak, Teak, Chestnut and Black.	250ml	\$33
	Recoat annually in full exposure. 2 coats recommended. Coverage 25 - 30m ² / L.	750ml	\$68
		2.5L	\$186
		5L	\$326
		10L	\$598

PAINTED EARTH

Deck Cote	A low VOC, fast drying, mould resistant exterior timber finish made from natural oils & synthetic ingredients. Deckcote has the rich colour of an oil combined with the flexibility, durability and ease of a waterbased finish. Won't ever chip or peel. Builds to a satin sheen with several coats. Honey Oak, or Ironbark colours. Recoat annually in full exposure. 2- 3 thin coats. 10 - 18m ² /L VOC 40g/L	100ml	\$10
		1L	\$28
		2.5L	\$68
		5L	\$118

RUBIO MONOCOAT

Sunprimer & Decking Oil	A duo system consisting of waterbased colour for good protection againsts UV and mould, followed by a coat of a high quality oil that bonds to the timber. The combination of the two produces a long lasting finish on exterior panelling, trim, decks & furniture. The Sunprimer colours are strong and almost obscure the timber. However after applying the oil the look is not like paint but rather a coloured oiled timber look. Monocoat Exterior Wood Cleaner must be used prior, to prepare the timber for deep penetration of the colour. Recoat with a mix of colour and oil every 2 - 5 years in full exposure. Sunprimer covers 10 - 20m ² /L. Decking oil covers 40 - 60m ² /L	SP100ml	\$39
		SP1L	\$213
		SP 5L	\$963
		DO 350ml	\$92
		DO 1.3L	\$272
		DO 3.5L	\$704

Hybrid Wood Protector	A further development on the above product. Combines oil and colour in one. A simpler one coat application. For exterior panelling, trim & furniture. Recoat annually in full exposure. Available in Teak, Black, Chocolate, Grey, Natural, Pure, Royal ,White. Aprox 30m ² /L	20/100ml	\$12 / \$37
		500ml	\$151
		1L	\$250
		2.5L	\$613

MUROBOND

Exterior Woodwash	A water based matt stain finish suitable for exterior softwood panel & ply. Scandinavian limed look Provides a water repellent finish, UV and mould resistant. Slow drying. Only for vertical surfaces. Available in a range of colours. 2 coats. Rough sawn timber 2 - 5 m ² / L Smoother timber 5 - 7m ² /L	1L	\$42
		4L	\$113
		10L	\$245
		15L	\$316

LANOTEC

Timber Seal	A clear finish for exterior timber containing lanolin in a non-toxic, non- ozone depleting paraffinic carrier. Protects and preserves timber against wood rot, drying & splitting, acid & salt water, but does not stop natural greying. Good slip reduction, prevents corrosion of fastenings, great for decks, walkways, pool surrounds & bridge timbers. Apply 2 thin coats. 8 - 15m ² /L. Recoat annually	1L	\$28
		5L	\$100
		20L	\$339

Timber Seal <i>Plus</i>	As above but more heavy duty - for rough sawn timbers, warves, piers & bridges.	20L	\$381
-------------------------	---	-----	-------
